

WHAT ARE THE HEALTH BENEFITS OF all natural juicing?

preparing for your cleanse

COMMON FAQs ANSWERED

CAN I EAT WHILE CLEANSING?

For optimal results, try to avoid solid foods, however, if you must, choose organic fruits and veggies (particularly the ones used in our juices).

DO I HAVE TO CUT OUT COFFEE?

If this is not feasible, try to stick to 1 cup of black organic coffee maximum (or green tea).

HOW LONG DO THE JUICES LAST?

We use a natural process called HPP to preserve our juices giving weeks of shelf life (as long as juices are kept cool). As a result, we can guarantee a minimum of 2 weeks from arrival date to expiry so you have some flexibility when planning your cleanse!

HOW WILL THIS CLEANSE AFFECT MY ENERGY LEVELS?

In the first 24 to 48 hours you may notice a dip in energy levels. Ensuring you follow our pre cleanse steps and stay well hydrated throughout the process will help alleviate any symptoms in the early stages.

HOW WILL THIS CLEANSE IMPACT MY DIGESTION?

There is no one size fits all response to this question unfortunately. Most see a decrease in regularity as solids are removed and then an increase again once food is introduced.
